

Name	Valeria Falce
Title of publication 1	“Informazione e Big Data tra Innovazione e Mercato” (Information and Big Data between Innovation and Market), Quaderni Romani di Diritto Commerciale, Giuffrè Ed., Milan, 2018, ISBN: 9788814224287
Year	2018
Abstract	The book covers the main legal and economic issues related to data and information in the knowledge-based economy, coming to the conclusion that whereas data are crucial for the European economic and societal growth and inclusion, their accumulation, elaboration and use can raise legal issues to be tackled with an integrated approach.
Title of publication 2	“Concorrenza e Comportamenti escludenti nei mercati dell’innovazione” (Competition and Exclusionary Conducts in the Innovation Markets), Il Mulino Ed., Bologna, 2017, ISBN: 9788815267795.
Year	2017
Abstract	The book identifies and scrutinizes the legal and economic characteristics of the markets related to innovation with the view to verify if and to which extent the European competition toolbox is suitable to tackle possible anticompetitive and unfair behaviours.
Title of publication 3	“Smart Cities e diritto dell’innovazione” (Smart Cities and The Law of Innovation), Quaderni di Giurisprudenza commerciale, Giuffrè Ed., Milan, 2016, ISBN: 9788814213151.
Year	2016
Abstract	Smart cities and sharing economy are at the heart of the Digital Agenda. The book identifies the European framework, with a specific analysis of the most relevant challenges raised by the new model under a technology, innovation and competition approach.
Title of publication 4	“Trade Secrets – Looking for (Full) Harmonization in the Innovation Union”, (2015) 46 IIC - International Review of Intellectual Property and Competition Law 940–964.
Year	2015
Abstract:	Within the Innovation Union, trade secret protection plays a fundamental role, incentivising inter- and intra-sectorial forms of cooperation that can rely on the secure exchange of sensible information within a circle of persons. The Article quests for the urgent need of full harmonization in Europe, also in the light of the inconsistencies and limits of the implementation of Art. 31, TRIPs.

Title of publication 5	“Confini e fronti dell’innovazione biotecnologica per la proprietà industriale” (Boundaries and Frontiers of Biotech innovation under an Intellectual property perspective), Quaderni di Giurisprudenza commerciale, Giuffrè Ed., Milan, 2014, ISBN: 9788814183874
Year	2014
Abstract	The innovation process is facing multiple challenges in relation to the so-called new technologies. The book covers the most relevant issues relating to the discovery-invention conundrum, looking at the new forms of collaborations arising in the biotech industry and providing for some sound solutions in the light of the most recent European case-law.
Title of publication 6	“Intellectual Property in Italy, International Encyclopedia of Laws for Intellectual Property, Wolter Kluwer, 2014”, ISBN: 9789065448873
Year	2014
Abstract:	Intellectual property law is one the most internationalized fields of contemporary law. This book analyses and discusses the Italian intellectual property regime, examining its fundamental principles and its most important evolutionary profiles.
